

ROMMEL G. DONES

SAP C4C Functional Consultant

Santa Rosa City, Laguna | donesrommel2000@gmail.com | 09154088234 | rommel-dones.vercel.app

WORK EXPERIENCES

SAP C4C Specialist (August 2025 - Present)

Ascendion Digital Solutions Philippines Inc. (Deployed to Essilor Shared Service Philippines Inc.)

17/F Capella Bldg. ASEAN Drive, Filinvest City, Alabang, Muntinlupa City

- Provide functional support and issue resolution for SAP C4C users across Europe, North America, Latin America, and Asia-Pacific, ensuring system stability and business continuity.
- Serve as the primary point of contact for ticket review, prioritization, dispatching, and stakeholder coordination to ensure timely resolution of support requests.
- Collaborate with Product Owners and business stakeholders to analyze, manage, and implement change requests aligned with business requirements.
- Lead non-regression testing for scheduled transports, system enhancements, and SAP upgrades to validate functionality and minimize operational disruptions.
- Drive continuous improvement initiatives by identifying process optimization opportunities and supporting efficient SAP C4C operations.

Quality Control Engineer (December 2022 – August 2025)

Ionics EMS Inc.

Carmelray Industrial Park II, Brgy. Milagrosa Calamba City, Laguna

- Conducted line quality monitoring, process qualification, and internal quality audits to ensure compliance with quality standards and customer requirements.
- Investigated customer complaints and internal quality issues through root cause analysis, implementing corrective and preventive actions (CAPA) to drive continuous improvement.
- Served as a key quality representative during customer audits, supporting audit preparation, documentation, and compliance activities.
- Collaborated with Production and Engineering teams to optimize processes, reduce defects, and resolve manufacturing and quality-related issues.
- Developed and analyzed quality performance reports and dashboards using Microsoft Excel, TIBCO Spotfire, and Power BI, providing insights to improve product quality and operational efficiency.

TECHNICAL SKILLS

- SAP C4C Functional (Business Configuration, Adaptation, Organizational and User Management, Workflow, Approval Process, Business Analytics)
